Intelligence Meets — Precision

- **Designed Dental Specifically** —
Built for consistent, predictable clinical results.
- **18 µm XY Accuracy** —
Tighter margins, fewer remakes.
- **Optional Small Resin Tank** —
Less resin, less waste, lower cost per case.
- **ACF Release Film Technology** —
Fewer failed prints, longer film life.
- **ODYX Box Slicer** —
Auto-loads settings, zero manual tuning.
- **9K Monochrome LCD** —
Sharper detail, smoother surfaces.
- **Compatible with Multiple Dental Resins** —
One printer, every application.

Applications:

- Dental Models
- Crown & Bridge Models
- Surgical Guides
- Temporary Restorations
- Orthodontic Models
- Denture Applications
- Castable Patterns
- Occlusal Splints
