Workflow

Precision You Control, —Safety You Trust.

- **Adjustable Light Intensity** — 5–100%, prevents over/under-curing.
- **8 Memory Presets** — One-touch, consistent results.
- **Triple-Wavelength UV** — 365/385/405nm, wider resin compatibility.
- **One-Way Mirror Design** — Maximizes UV, safe to observe.
- **Anodized Metal Body** — Chemical-resistant, built to last.
- **Dual Voltage** — 115V/230V, worldwide-ready.
- **Fast Curing Time** — 1–5 min, faster turnaround.
- **360° All-Round Curing** — Uniform strength, every angle.
- **Smart Protection** — Auto-stops when cover opens.
- **Touch Interface** — Simple controls, faster workflow.
- **Adjustable Timer** — 1 sec–30 min, precise control.

Applications:

- Temporary Restorations
- Crown & Bridge Models
- Denture Applications
- Orthodontic Models
- Castable Patterns
- Occlusal Splints
- Surgical Guides
- Dental Models
