Workflow

# Smarter Scan, Better Outcomes.

- **AI Margin Detection** —

Automatic margin detection shortens the CAD workflow.

- **AI Clinical Analysis** —

Caries, calculus, malocclusion — with treatment options.

- **Full Arch in 40 Seconds** —

Less chair time, more patients daily.

- **AI Soft Tissue Filtering** —

Removes tongue, cheeks — cleaner, faster scans.

- **Remote Control** —

Full control, no computer touch needed.

- **Open System** —

STL/OBJ export, works with any lab.

## Applications:

- Full-Arch Digital Impressions.
- Digital Smile Design.
- Restorative Cases.
- Prosthodontics.
- Implant Cases.
- Orthodontics.
